MINUTES OF BOARD MEETING

The Board of Control of the Kentucky High School Athletic Association met at the Executive Inn—East, Louisville, Kentucky, on Friday, January 16, 1981. The meeting was called to order by President Zeb Blankenship at 9:00 A.M., with all Board members, Commissioner Tom Mills, Assistant Commissioners Brigid DeVries, Louis Stout and Billy V. Wise present. The invocation was given by Walter Pickett.

Walter Pickett moved, seconded by Robie Harper, that the minutes of the December 13, 1980, meeting of the Board of Control be approved. The motion carried unanimously.

Larry Barnes, Mr. Dorman Dunn and Mark Dunn came before the Board to speak on behalf of Mark Dunn who had been ruled ineligible to participate in athletics at Doss High School. After a lengthy discussion of his presentation, Barney Thweatt moved, seconded by J. D. Minnehan, that the decision of the Commissioner be upheld and that By-Law 6, Section 1, Transfer Rule, not be waived in this case. The motion carried unanimously.

Mr. Mills read the changes in By-Law 6, recommended by a committee composed of Board Members Zeb Blankenship, J.D. Minnehan and John Brock. After a discussion by the Board members Charles Black moved, seconded by Fairce O. Woods, that the Board accept the recommended changes in By-Law 6 and present the proposal to the Delegate Assembly in April. The motion carried unanimously. A list of proposals to be submitted to the 1981 Delegate Assembly for consideration will be printed in a future *Athlete*.

Executive Assistant Billy Wise gave a report on the progress of ticket sales for the boys' and girls' state basketball tournaments. Mr. Wise reported that ticket sales have shown a slight increase over those of the same period last year.

Bullitt Central High School had requested to remain in football Class AAAA, Region II, District 1. After a discussion Fairce O. Woods moved, seconded by J.D. Minnehan, that Bullitt Central High School be allowed to remain in their district. The motion carried by a vote of 9—1. The new alignment for 1981 and 1982 football seasons will be printed in the February issue of the *Athlete*.

Commissioner Mills read a letter from Supt. Joseph Anthony of McLean County Schools, requesting the Board reconsider the football alignment in Class AA, Region I, District 1. After a discussion no action was taken on this request.

Mr. Mills discussed with the Board a plan to cover all coaches of the Kentucky High School Athletic Association member schools under the catastrophe insurance protection program. Robie Harper moved, seconded by Whaylon Coleman, that the recommended insurance plan be accepted. The motion carried unanimously. The plan is with Doug Ruedlinger, Inc., will go into effect March 1, 1981, and will provide coverage up to \$100,000.00 in

medical benefits per injury with a \$1,000.00 deductible clause.

Barney Thweatt moved, seconded by John Brock, that the Board support the "Tenth Annual Medical Aspects of Sports Symposium: Sports Medicine Programs for our Schools" and encourage the coaches, trainers and administrators to attend this medical clinic. The motion carried unanimously. Information and a pre-registration form will be printed in the January issue of the *Athlete*.

Fairce Woods moved, seconded by Whaylon Coleman, that all bills of the Association for the month of December be allowed. The motion carried unanimously.

The next meeting of the Board of Control was scheduled for Friday, March 20, 1981, 9:00 A.M., at the Hyatt Regency, Lexington, Kentucky.

There being no further business, Fairce Woods moved, seconded by Whaylon Coleman, that the meeting adjourn. The motion carried unanimously.

ELECTRICAL SAFETY IN THE TRAINING ROOM

By: Mimi M. Porter, M.S., A.T.C., Athletic Association, University of Kentucky and Jonathan W. Porter, E.E., Kentucky Utilities Company, Lexington, Kentucky.

On April 18th of this year, a 17-year-old high school athlete was killed in a whirlpool in Paris, Kentucky. The whirlpool motor was government surplus equipment, installed in the high school locker room and grounded by the wall socket. Before this accident occurred, this was a typical situation to be found in many high schools and colleges throughout Kentucky and, no doubt, other states as well.

It is a common, but mistaken belief, that three-pronged plugs, circuit breakers and grounded wall sockets are adequate protection from electric shock in a wet area. But the fact is, these devices cannot detect the small amount of diverted current necessary to injure or kill a person. Fortunately, though, there is a device that can. It is called a ground fault breaker or ground fault circuit interrupter. The g.f.b. continually compares the amount of current going to the motor to the amount of current returning from the motor. Whenever the amount going differs from the amount returning, the g.f.b. interrupts the power in as little as 1/40th of a second. This difference in current is called leakage and the path it takes to ground could be through a person. (1)

In a dry situation, g.f.b.'s aren't necessarily needed if electrical tools are properly grounded in some other way — if their cords have three pronged

KAPOS NEWS STATE TOURNAMENT INFORMATION

Participating cheerleader and sponsor registration: all cheerleading squads and/or sponsors are asked to stop by the KAPOS table in Rupp Arena to:

1. Register your squad
2. Pick up important information and materials for you and your school.

Along with a KAPOS board member, there will be high school cheerleaders on hand to assist you. They can be identified by their hostess armbands. Feel free to ask them for help, and in turn they may seek you and your cheerleaders to be interviewed by one of the radio commentators. In order to make their task easier, we are asking that you register your seat, row and section number. A possible radio interview is often missed because the guides could not locate the desired person in time for the interview.

Hospitality Room: May we remind all sponsors and cheerleaders that KAPOS has a Hospitality Room located on the playing level of Rupp Arena. We cordially invite you to have refreshments, socialize with friends, exchange ideas, and perhaps get help with your problems.

"Sweet Sixteen" Cheerleading Squads: **Attention Principals!** If your team will be participating in the State Tournament, included in the packet sent to you by the KHSAA will be a letter pertaining to your cheerleading squad. Be sure to look for this and

relay all information to your cheerleader sponsor. We request that your cheerleaders be chaperoned by a well qualified, school approved adult. Verification of this, along with your sponsor's name, must be contained in the letter of confirmation which you will receive. This letter must be in the hands of a KAPOS officer prior to the time that your cheerleaders take the floor.

Important! Please be sure that your school is a paid member of KAPOS or pays the fee before their first game in order for your squad to compete for the cheerleading awards in the State Tournament. The winners of these awards will be determined by use of the KAPOS Judging Sheet, a copy of which will also be included in the packet sent by the K.H.S.A.A. to the winners of the sixteen regions.

AWARDING OF TROPHIES

KAPOS is pleased to honor outstanding cheerleading squads with the recognition they so well deserve. All cheerleader awards will be presented between games on Friday night of the State Tournament. The awards are as follows:

The winning cheerleader squad in the Boys' Sweet Sixteen will receive the Ted Sanford Trophy; in the Girls' Sweet Sixteen the Tom Mills award. The runner-up cheerleading squad will receive a trophy, with the third and fourth place squads being awarded plaques. In addition, the special K-Pep Award will be presented. All-Tournament cheerleading squads and their sponsors are asked to be located close to the playing floor so they can easily come on the floor should they be called for an award.

UNION COUNTY — CLASS AAA, REGION I, DISTRICT 1, CHAMPION

(Left to Right) Front Row: L. Ricks (Mgr.), K. Heine, S. Luttrell, T. Tucker, G. Chambliss, S. Heine, J. Steward, T. Joiner, V. Sheridan, T. Steward, J. Greenwell, J. Hicks, F. Byrd, Asst. Coach. Second Row: L. Heffington, Asst. Coach, J. Maddox, D. Gatten, D. Walker, W. Benson, M. Calloway, F. Parls, R. Holt, R. Collins, J. Sheffer, K. Garrett, A. Stone, T. French, J. Fellows, Asst. Coach. Third Row: C. Paris, Asst. Coach, J. Johnson, J. Smith, S. Shaver, T. Kanaly, R. Berry, C. Welch, M. Coffman, R. Turner, T. Davis, S. Wesley, J. Burnette, A. Sprague, R. Johnson, D. McDonald, Head Coach.

GOVERNOR BROWN DECLARES GOOD SPORTSMANSHIP MONTH

While every month should be Good SportsmanSHIP Month, KAPOS has always tried to put special emphasis on being a good sport at tournament time. Being a good sport is part of being a good citizen. We don't believe that good citizens need to be reminded to exemplify good sportsmanSHIP. However, it is especially fitting at tournament time to remind all citizens that it is a privilege to be able to attend the games and that each individual can contribute to the success of the tournament if he will abide by the KAPOS SportsmanSHIP Creed proclaimed by Governor Brown. The Governor's proclamation is on display at the KAPOS table.

NOTE TO ALL ADMINISTRATORS

Many of you have responded to our SOS in releasing teaching personnel to assist with the many tasks necessary to keep this organization functioning effectively.

Again, we need judges and personnel to help at the tournament. This involves at least 12 to 15 people. It is also backbreaking, tiresome work. However, we have many dedicated persons who have indicated a willingness to help share these duties provided they get a release from their administrators. Therefore, the KAPOS board is seeking your understanding and cooperation should you be asked to release a teacher from her duties to help carry on the work that KAPOS is doing to make cheerleading a worthwhile educational experience in the State of Kentucky.

STATE -AT-LARGE CHAMPIONS

Recognition is annually given to cheerleading

squads other than those sixteen fortunate enough to participate with their teams in the State Tournament. The winner will receive the Jane Meyer trophy, while the runner-up will receive the President's Trophy. Plaques will be given to the third and fourth place squads.

Beginning at the district level, all squads that are KAPOS members are eligible to be judged for the honor of representing their district in the KAPOS Region-At-Large cheerleading competition. The winner and runner-up of each district will progress to the region. In turn the girls' varsity winner and the boys' varsity winner and runner-up from each region is allowed to compete for the title of State-At-Large Cheerleading Champions.

Judging for the Boys' State-At-Large winners will take place at 8:30 A.M. on Friday, March 20, and at 8:30 A.M., Saturday, March 21, in the Lafayette High School Gymnasium, 400 Reed Lane, Lexington. The public is invited to this outstanding event. The admission charge of \$1.00 per person will go toward the expenses of the KAPOS scholarship award, details of which are supplied below.

Judging for the Girls' State-At-Large winners will take place at 8:00 A.M., on Saturday, March 28, in the Madison Central High School gymnasium, 705 North Second Street, Richmond.

At the conclusion of the judging, trophies will be awarded to the top four squads, in addition to several special awards.

STELLA S. GILB SCHOLARSHIP

KAPOS is happy to annually award the Stella S. Gilb Scholarship to an outstanding and well-deserving cheerleader from Kentucky. One of your cheerleaders may be a potential scholarship winner, so get your applications in early. Applications must be turned in no later than April 15. Contact a KAPOS board member or officer for application forms, or pick them up at the State Tournament KAPOS table.

Electrical Safety**Cont. from Page 1**

plugs and those are inserted in grounded receptacles. (2) But in a wet area, a g.f.b. is necessary because of the rather unique situation the human body is placed in when it is wet and subjected to electrical current.

The human body is a conductor of electricity. Resistance to the flow of electricity through the body is reduced when the body is wet. If you came in contact with an energized wire, you would get shocked. If you touched that same wire when you were wet or standing in water, the shock you would get would be at least five times as great as when you were dry. Electrical current flowing through the body causes injury.

In order to understand the protection offered by a g.f.b. we must first determine what the safe and unsafe levels of currents are for the human body.

Current is measured in amps. The currents that are harmful to the human body are measured in milliamps or one-thousandths of an amp. These are very, very small currents. An ordinary 100 watt light bulb will draw about one amp. Power lines carry hundreds or even thousands of amps. A safe current level for the human body is defined as about eight milliamps. You can barely feel this amount of current. 8—100 milliamps can result in a painful shock. 100—200 milliamps flowing through the heart will disrupt the normal nerve impulses to the muscle fibers and cause fibrillation. As the currents get above 200 milliamps, tissues are destroyed due to the extremely rapid rise in temperature. From this level of current, you also get severe, non-relaxing muscle contractions. This includes the heart muscle. The heart muscle fibers will contract but not relax.

A g.f.b. is designed to interrupt the power in a circuit, if there is a discrepancy of more than five milliamps in that circuit. As we have said, this is a current below the level of sensation for most people. The individual is being shocked but doesn't know it and the whirlpool shuts off due to the circuit breaker. A conventional fuse or circuit breaker is set to trip out at an overload situation, such as would cause a house to burn down, not to protect a human. These are set at 15—20 amps, not 5 milliamps.

Now, back to our whirlpool hazard. You must realize that if the insulation should fail in the whirlpool motor when you are immersed in the tank or touching it, you become a parallel electrical circuit. And as I said before, simple grounding is not enough. By grounding a whirlpool you do provide a circuit that supposedly will conduct current through it, if the insulation should fail. But it doesn't matter how well grounded it is, if you are in the tank or touching it, you are still a parallel path and will receive some amount of current. While the amount of current in your path can be reduced by proper grounding, it cannot be eliminated and could fall into the range of harmful currents mentioned earlier. The g.f.b. measures all the currents that are flowing through your portion of the circuit and the grounded portion of the circuit and will trip out the motor at five milliamps.

G.f.b.'s have been available for the past 5-6 years. They cost about 40-50 dollars and should be installed by a qualified electrician. There are two types — one is designed for installation in the wall

outlet. The other type is designed for installation into the circuit breaker panel. You should choose the type that best suits your number and arrangement of hydrotherapy units. Don't forget cold immersion tanks and underwater ultra sound.

It is probably unnecessary for me to bring up the legal implications of failure to install g.f.b.'s. The National Electric Code requires them in all health care facilities. There will be a whole new section added to the 1981 NEC specifying their use of therapeutic pools and tubs. If your facility were not in compliance to this code, and next year it will be very specific, you would not stand a chance in a law suit. (The code references for those of you who may need to site them to your administrators are: 1978 NEC — article 517-92. 1981 NEC — section F of article 680-62.)

There are many reasons why a motor can go bad other than insulation failure, so the chances of this particular fault occurring are relatively remote. But it does occur and has occurred and the stakes are so high that it is well worth having the best protection that is technologically available to us. Let me urge you to have an expert in to inspect your hydrotherapy areas and install g.f.b. and avoid any possible tragedy.
